SUMMARY

Java Developer with 3+ years of experience in building scalable backend systems, RESTful APIs, and enterprise applications using Java, Spring Boot, Spring Ai, MySQL, MongoDB, and Angular. Experienced in AI-powered workflows, payment integrations, document management, production support, API integrations, and enterprise workflow automation. Looking for a role where I can contribute to building reliable, high-performance, and scalable backend solutions.

EXPERIENCE

BPAAS Solutions Pvt. Ltd.

Jan 2025 – Present

Software Developer

Gurugram, Haryana

- Developed AI-powered EdTech solutions using Spring AI, LLM integration, prompt engineering, and Retrieval-Augmented Generation (RAG) concepts for intelligent content generation and learning workflows.
- Implemented AI-driven question bank generation from uploaded PDFs using Spring AI ChatClient, document processing pipelines, prompt engineering, and model orchestration.
- Worked on enterprise insurance workflow automation projects using Java, Spring Boot, Angular, MongoDB, MySQL, AWS, and Newgen OmniApp/OmniDocs platforms.
- Developed backend APIs and Angular-integrated modules for blogs, notes, flashcards, learning resources, and content workflows.
- Integrated Razorpay and Stripe for payment processing, refunds, settlements, and transaction status tracking.
- Worked on Newgen OmniApp and OmniDocs for Ageas Federal Life Insurance, handling production issues, CRs, and workflow enhancements.
- Built Core Java process logic, Spring Boot utilities, MySQL procedures, and API wrapper integrations for enterprise workflows.
- Leveraged AI-assisted development tools including GitHub Copilot, Claude, Gemini, OpenAI Codex, and Antigravity for code generation, debugging, refactoring, testing, and technical documentation.
- Utilized AI-powered development workflows to accelerate feature delivery, improve code quality, and enhance overall engineering productivity.

Quality and Testing Info Solution Pvt. Ltd.

Jan 2023 – Dec 2024

Java Developer

Gurugram, Haryana

- Developed data collection and analysis features for Sample Inspection and Sample Survey modules.
- Contributed to HR module development, improving employee hiring and internal workflow processes.
- Developed a LIMS module using Spring Boot and RESTful APIs to manage customers, quotations, order processing, and invoice generation.
- Built and maintained backend APIs using Java, Spring Boot, Hibernate, MySQL, MongoDB, and RESTful web services.
- Worked on debugging, API enhancements, database queries, and production-level issue resolution across multiple modules.

PROJECTS

SmartPrep - AI-Powered Personalized Learning Platform

- Building an AI-powered platform that creates personalized learning roadmaps based on user goals, skill level, profession, and study time.
- Designed an AI Mentor flow to guide users through onboarding and generate topic-wise learning plans, activities, and assessments.
- Implemented coding and non-coding learning workflows with AI-based evaluation, feedback, and progress tracking.

- Developed AI tools such as quiz generator, notes generator, coding question generator, resume builder, PDF chat, and concept explainer.
- Built admin modules for prompt management, learning content, analytics, subscriptions, and usage monitoring.

StayNest - PG and Hostel Management Software

- Developed a PG/hostel management platform for managing properties, rooms, beds, tenants, rent, electricity billing, and payments.
- Implemented room and bed management with occupancy tracking, tenant assignment, vacant bed tracking, and dashboard metrics.
- Built tenant workflows for onboarding, profile management, room allocation, rent history, documents, and owner-specific access.
- Developed rent and payment modules for monthly rent generation, pending/paid tracking, and payment history.
- Added electricity billing and tenant self-service features for viewing room details, rent records, charges, and documents.

EDUCATION

JC Bose University of Science and Technology

B.Tech in Electrical Engineering

July 2018 – Oct 2022

Haryana, India

- CGPA: 8+

CETPA Infotech - Training

Full-Stack Java Developer

June 2022 - Jan 2023

Noida, UP, India

SKILLS

Languages : Java, SQL, JavaScript, HTML, CSS

Backend : Spring Boot, Spring MVC, Spring Security, Spring AI, REST APIs, Web Services, Microservices, Hibernate, JDBC

Frontend : Angular, HTML, CSS, JavaScript

Databases : MySQL, MongoDB, Stored Procedures

Cloud & Integrations : AWS S3, AWS SES, Razorpay, Stripe, API Wrapper Integrations

Enterprise Tools : Newgen OmniApp, OmniDocs

Tools : IntelliJ IDEA, STS, Eclipse, VS Code, Postman, Git, GitHub, SonarLint, JIRA

Other : Object-Oriented Programming, Data Structures and Algorithms, Docker, Kafka, Production Support, Debugging

ACHIEVEMENTS

- Solved 300+ DSA questions on LeetCode and GeeksforGeeks.
- Proposed an innovative idea for process improvement.

CERTIFICATIONS

- Full Stack Java Developer Certified - CETPA.
- JavaScript Certification - MyGreatLearning.
